

AMENDMENTS

Amendments to the Claims:

Please cancel claims 1-3, and 7-11 without prejudice. Please add claims 19-34, all as indicated below in the detailed listing of claims:

Claims 1-11 (canceled).

Claim 12 (withdrawn). An apparatus for automatically distributing literature to a client, comprising:

- a processor;
- a database comprising literature;
- a controller configured to control various operational aspects of the apparatus;
- a booklet-producing device configured to produce a booklet which contains selected portions of the literature;

- a communication link which is connectable between the controller and the booklet-producing device, and which is configured to provide signal communication there between; and,

wherein the processor is configured to receive a request for the selected portions of the literature, to retrieve the selected portions of the literature from the database, and to transmit the selected portions of the literature to the booklet producing device via the communication link.

Claim 13 (withdrawn). The apparatus of claim 12, and further comprising a database which is resident within the controller and which is configured to contain all of the literature from which selected literature can be obtained for printing in the booklet, and wherein the processor is further configured to execute a series of computer executable steps to assemble selected portions of the literature from the database into a printable format to be printed by the booklet-producing device.

1 Claim 14 (withdrawn). The apparatus of claim 12, and wherein the processor is
2 configured to execute a series of computer executable steps to generate a cover
3 letter addressed to the client, wherein the cover letter is based on portions of the
4 literature selected by the client.

5 Claim 15 (withdrawn). The apparatus of claim 12, and wherein:
6 the booklet comprises a plurality of sheets of media; and,
7 the processor is configured to execute a series of computer executable steps
8 to count the number of sheet of media which are used in making a given booklet and
9 to calculate the postage for the given booklet based on the number of sheets of
10 media counted for the given booklet, and on an estimated weight of each sheet of
11 media.

12 Claim 16 (withdrawn). The apparatus of claim 12, and wherein the processor is
13 configured to execute a series of computer executable steps to generate prompt
14 signals to send to the client.

15 Claim 17 (withdrawn). The apparatus of claim 12, and wherein the processor is
16 configured to execute a series of computer executable steps to receive and direct
17 signals from the client via a communication link.

18 Claim 18 (withdrawn). The apparatus of claim 12, and further comprising a client
19 interface device in signal communication with the controller.

22
23
24
25

1 Claim 19 (new). A method, comprising:

2 providing a client interface, wherein the client interface comprises at least a
3 portion of a telecommunications network;

4 detecting a client inquiry via the client interface;

5 presenting an information selection prompt via the client interface in response
6 to the client inquiry;

7 receiving a client selection via the client interface in response to presenting
8 the information selection prompt;

9 obtaining an electronic image comprising, a postage marking calculated
10 based on a total weight of a booklet; and,

11 printing the electronic image onto one or more sheets of print media.

12 Claim 20 (new). The method of claim 19, further comprising:

13 presenting a name and address prompt via the client interface; and,

14 receiving a client name and postal address in response to presenting the
15 name and address prompt.

16 Claim 21 (new). The method of claim 20, wherein the electronic image further
17 comprises the client name and postal address.

18 Claim 22 (new). The method of claim 19, wherein the electronic image further
19 comprises an image to be purchased by the client.

20 Claim 23 (new). The method of claim 22, wherein the image to be purchased by the
21 client is substantially in the form of sheet music.

22 Claim 24 (new). The method of claim 22, wherein the image to be purchased by the
23 client is substantially in the form of artistic graphics.

24 Claim 25 (new). The method of claim 22, wherein the image to be purchased by the
25 client is substantially in the form of literary text.

1 Claim 26 (new). The method of claim 22, wherein the image to be purchased by the
2 client is substantially in the form of technical data.

3 Claim 27 (new). A method, comprising:

4 providing a client interface, wherein the client interface comprises at least a
5 portion of the Internet;

6 detecting a client inquiry via the client interface;

7 presenting an information selection prompt via the client interface in response
8 to the client inquiry;

9 receiving a client selection via the client interface in response to presenting
10 the information selection prompt;

11 obtaining an electronic image comprising, a postage marking calculated
12 based on a total weight of a booklet; and,

13 printing the electronic image onto one or more sheets of print media.

14 Claim 28 (new). The method of claim 27, further comprising:

15 presenting a name and address prompt via the client interface; and,

16 receiving a client name and postal address in response to presenting the
17 name and address prompt.

18 Claim 29 (new). The method of claim 28, wherein the electronic image further
19 comprises the client name and postal address.

20 Claim 30 (new). The method of claim 27, wherein the electronic image further
21 comprises an image to be purchased by the client.

22 Claim 31 (new). The method of claim 30, wherein the image to be purchased by the
23 client is substantially in the form of sheet music.

24 Claim 32 (new). The method of claim 30, wherein the image to be purchased by the
25 client is substantially in the form of artistic graphics.

1 Claim 33 (new). The method of claim 30, wherein the image to be purchased by the
2 client is substantially in the form of literary text.

3 Claim 34 (new). The method of claim 30, wherein the image to be purchased by the
4 client is substantially in the form of technical data.
